

Free Seminar in Cantonese

What you need to know about Traditional & Complementary Medicine

The seminar will cover:

- How to safely incorporate traditional and complementary medicine with western medicine?
- What are traditional and complementary medicine dietary recommendations for a healthy diet?
- Tips for communicating with your herbalists and doctors.
- What are the common drug-drug interactions?

You may join the seminar in-person or on-line.

Call 415-677-2473 to register!
